

VIVOTEK Crowd Control System

Maintain Crowd Occupancy with VIVOTEK Crowd Control Solution

Reduction of Staff Costs

Business owners will not need to deploy a staff member outside to count people coming in and out, helping to reduce costs and reduce staff members potential exposure to health risks.

Gov. Guidance Compliant

Comply with government ordinances to defend against COVID-19, enabling your business to resume operations sooner.

Safer Environment

Provide a safer environment through reduced social interaction, customers will also be safe to manage their daily activities.

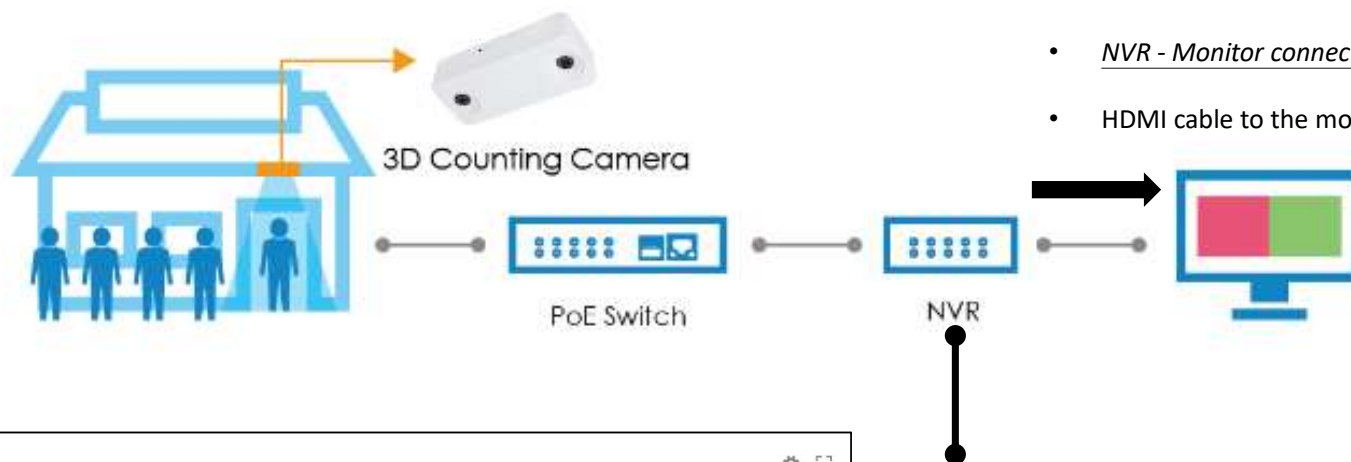

Extended Applications

VIVOTEK Crowd Control Solution adopts 3D-depth counting technology, providing people counting accuracy up to 98%. Not only does it manage indoor traffic, but it can be extended to tailgating and access control applications as well. With the integration of 3D Counting Cameras and VIVOCLOUD NVR's, business owners can transfer the VIVOTEK Crowd Control Solution into VIVOCLOUD Retail Solutions. It not only provides Live Streaming Surveillance and Guest Count Reports while on the go, it helps optimize retail operations with no additional charge.
